DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 13 January 2024 at 05:49 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Predominantly Low levels of air pollution are expected across the UK today, but some very isolated areas of elevated pollution are possible in urban areas where winds are light.

Tomorrow: A very cold northerly wind will develop across the UK though Sunday, helping to maintain Low levels of air pollution.

Outlook: Low levels of air pollution will continue across the UK, helped by often windy conditions and clean arctic air across the UK.
